

COMMERCIAL WARRANTY COVERAGE

Fisher Engineering, a division of FISHER, LLC, warrants to the original purchaser of a FISHER® spreader that the spreader will, for a period of two (2) years after the date of original purchase, be free from defects in material and workmanship. Fisher Engineering warrants accessories, service parts, and components purchased separately for a period of one (1) year after original purchase to be free from defects in material and workmanship.

The foregoing warranties are exclusive and in lieu of all other express and implied warranties (except of title), including but not limited to the implied warranties of merchantability and fitness for a particular purpose.

WHAT IS NOT COVERED

This warranty shall not apply to finish, engine, or any parts not furnished by Fisher Engineering or any damage caused by such parts, or to parts which shall have been repaired or altered by other than Fisher Engineering so as, in Fisher Engineering's judgment, adversely to affect the same, or which shall have been subject to other than normal use or service, negligence, accident, or improper installation, maintenance, care, or storage. Engine manual has separate engine warranty.

Further, attachment of a FISHER spreader to motor vehicles is at the risk and expense of the purchaser. Compliance with applicable motor vehicle regulations is the responsibility of the installer. Fisher Engineering does not assume any liability for any damage to a motor vehicle resulting from the attachment or from the use of a FISHER spreader. Although FISHER spreaders are designed to fit specific vehicle models, Fisher Engineering does not assume any liability for the cost of modification of the spreader or the vehicle required to attach the spreader.

Fisher Engineering will not be responsible for any expense related to parts or labor which is unrelated to defects in material and workmanship of a FISHER spreader.

REMEDY FOR DEFECTIVE SPREADER

If within such warranty periods any part thereof is proved to Fisher Engineering's satisfaction to be defective, such part shall be repaired by Fisher Engineering or its authorized distributor or dealer or, at Fisher Engineering's option, replaced Free On Board (FOB) Fisher Engineering's factory without charge, including labor costs at its standard rate incurred while repairing said spreader. Fisher Engineering's obligation hereunder shall be limited to such repair or replacement, provided that the original purchaser of that spreader has followed the procedure for obtaining warranty performance set forth below.

Fisher Engineering's liability is expressly limited to the repair and replacement of defective parts as herein provided. Fisher Engineering shall not be liable for any consequential, incidental, or contingent damages whatsoever, whether for breach of contract, breach of warranty, negligence, or other tort, or on any strict liability theory.

PROCEDURE FOR OBTAINING WARRANTY PERFORMANCE

Within ten (10) days after the discovery of any alleged defect, the original purchaser of the spreader must notify Fisher Engineering of the claimed defect via their Factory Authorized Distributor/Dealer. The original purchaser must provide proof of original purchase and, at Fisher Engineering's option, return the allegedly defective part through their Factory Authorized Distributor/Dealer.
